WHAT IS IT?

Agriculture Education Week is an initiative focused on providing opportunities for students to learn more about agriculture during the week of March 17th - 21st, 2025. It is a collaborative effort between Lt. Governor Jacqueline Coleman, Ag Commissioner Jonathan Shell, and Education Commissioner Robbie Fletcher. We hope you'll join in and support your local students and the future of agriculture.

STORIES ABOUT AG

Join forces with our Kentucky Farm Bureau partners to read stories about ag during Ag **Education Week!**
